Importing references from the Library Catalogue into RefWorks

http://unihub.mdx.ac.uk/study/library
It is possible to import references from the Library Catalogue

Click on ‘Search’…

…and then select ‘Online catalog or database’
Select Middlesex University from the drop-down menu.

It is also possible to search some of the other Library catalogues on the list.
Enter your keywords in the search ‘Terms’ box

You can choose how many items are displayed in your search results

Click on ‘Search’…
You now have a list of books located in Middlesex University libraries.....

Select the references that you wish to export to RefWorks

Choose the folder where you want to send the references eg. HCI

Click on ‘Import’
Click on ‘View last imported folder’ to see your new references
The new references have been imported

New references are always sent to the ‘Last imported folder’….

…but will also be in the folder selected
